**Subject:** Mali COVID Update

Dear Tandana Friends and Supporters,

I hope you are all well and enjoying your holiday weekend. I would like to share an update with you on the COVID situation in Mali.

The emergency COVID response commission of Ningari has completed its work and held its final meeting. The commission thanked The Tandana Foundation for its support. One member said, "Tandana is the first partner who responded favorably to our request for assistance and the last partner to stay with us and complete the proposed plan." Currently, all of the identified positive cases of COVID in Ningari have recovered, and there are no new cases reported. Families are using the small hand wash kits that Tandana provided, and residents are using the large hand wash stations in public places.

Here are some photos from the meeting and of the hand wash stations.

Thank you so much for your continued support throughout this difficult time. Your contributions have helped these efforts be so successful.

Enjoy the rest of your weekend!

Until next time,

--
